

KEVIN DANIEL PELOZO RETAMAR

Software Engineer & AI Engineer

kevindp2008@gmail.com • (+506) 7007-3757 • Costa Rica • linkedin.com/in/kevin-pelozo • pelozok.github.io

Software Engineer with 5+ years of experience building production applications, currently focused on **AI-powered solutions and agentic development**. Built an entire fintech platform using Claude Code with extensive MCP integrations, demonstrating step-change improvements in delivery speed. Hands-on experience with LLM APIs, prompt engineering, n8n workflow orchestration, and AWS serverless architectures. Strong background in scalable web platforms, cloud infrastructure and team enablement. Skilled communicator with a strong bias toward action.

EDUCATION

Universidad Americana (UAM) Bachelor's Degree in Systems Engineering

San José, Costa Rica

2015

EXPERIENCE

deLaGuayaba S.A. — Costa Rica

April 2019 – Present

Software Developer & AI Solutions Engineer

- Built **Finwaise**, an AI-powered fintech platform for SMEs, almost entirely with **IA** and extensive **MCP** integrations — proving step-change productivity gains in development speed and delivery.
- Designed and deployed an AI document processing pipeline (**AWS ecosystem + AI APIs + Automation orchestrator**) for automated invoice extraction and validation, reducing manual data entry across financial workflows.
- Architected **serverless infrastructure on AWS** (Lambda, S3, Amplify, EC2) with Docker-based CI/CD, ensuring scalable and reliable production deployments.
- Configured multiple **MCP servers** and developed **prompt engineering** strategies to optimize AI-assisted code generation, review, and debugging.
- Led **küikmatch**, a collaboration platform serving **3,000+ users and 600+ companies**, with integrated LMS, georeferenced directories, and social features.
- Managed **50+ production environments** hosted on Apache2/AWS with **99.9% uptime**, including SSL configuration, performance tuning, and zero-downtime migrations for enterprise clients.
- Created technical documentation and training programs that improved team efficiency by **40%**.

Key client projects: Finwaise (AI fintech, lead dev), küikmatch (community platform), Cámara de Bancos CR, ABC Dust, Voces Vitales Costa Rica, Grupo TLA, Neutral Logistix, AlprosaGuate.

KEY ACHIEVEMENTS

- **Full Platform with Claude Code + MCPs:** Built Finwaise almost entirely using AI-assisted development.
- **40% Team Efficiency Improvement:** Through documentation, training programs, and standardized workflows.
- **Production AI Workflow:** Document processing pipeline (AWS Textract + ChatGPT + n8n) deployed in production.
- **Production Reliability:** 99.9% uptime across 50+ environments.

SKILLS

AI Developer Tools: Claude Code, Anthropic Claude API, OpenAI/ChatGPT API, Gemini, Nano Banana, GitHub Copilot, Cursor, MCP.

Programming: JavaScript, ReactJS, Ruby on Rails / Jets, WordPress, PHP, HTML/CSS.

Databases & Tools: PostgreSQL, MySQL, SQL Server, Git, Atlassian Suite (Jira, Confluence).

AI & Automation: Agentic Workflows, Prompt Engineering, n8n, AWS Textract, Document Processing Pipelines, Web Scraping.

Cloud & DevOps: AWS (EC2, S3, Lambda, Textract, Amplify), DigitalOcean, Docker, Apache2, Ubuntu, Hestia, CI/CD.

Soft Skills: Effective communication, stakeholder management, cross-cultural collaboration, bias toward action, continuous learning.

LANGUAGES

Spanish: Native • **English:** B2 Professional Working Proficiency
